A CAREER IN THE FINANCIAL INDUSTRY

ASSET PROTECTION | FINANCIAL PRIVACY

A new lawsuit is filed every two seconds!

What does that mean to you?

YOUR KEY TO SUCCESS IN THE BUSINESS OF ASSET PROTECTION

WHAT EXACTLY IS ASSET PROTECTION AND WHAT DOES IT MEAN?

Most people have liability insurance for their businesses or professions and normal homeowners insurance policies; may be additional “umbrella” coverage...and they should. But this is NOT asset protection — it is merely a step in the right direction. It too often lends a false sense of security to people.

Our independent asset protection consultants are trained and authorized to sell our asset protection products. As an independent consultant, you will be trained to educate clients about how to manage their financial affairs to minimize risk and provide strategies to protect their assets. In many cases, you need only have a brief discussion with the client, give them a video, brochure and our *The Secrets of Asset Protection, “Only the Wise Survive”* book to review. They will return to you having “sold themselves” and eager to proceed with asset protection. We have developed a state-of-the-art system and set of tools for successfully educating clients about the pressing need for asset protection, so that you can let these tools do the “heavy lifting” for you — there really is no “selling” required!
